

Wired Wednesday

Wired Wednesday Luncheon
April 23, 2008 ~ Noon – 1:30PM
CVCC – Merritt Hall, Room 5146
\$10 Members - \$15 Non-Members

"The Federal Laboratory Consortium for Technology Transfer"

Join us at our Spring Wired Wednesday luncheon on April 23 2008 from noon until 1:30PM. Employed at NASA, John Emond is the Mid-Atlantic Regional Coordinator from the Federal Laboratory Consortium (FLC) for Technology Transfer. Mr. Emond will talk about how local companies can work with the FLC-MAR. The FLC is the nationwide network of federal laboratories that provides the forum to develop strategies and opportunities for linking the laboratory mission technologies and expertise with the marketplace. The Federal Laboratory

Consortium, chartered by Congress, has as its mission to foster the transfer of technology from federal research labs to other agencies, state and local

governments, academia, and the private sector. Within the Federal Laboratory Consortium, the Mid-Atlantic Region consists of Delaware, Pennsylvania, Maryland, Washington DC, Virginia, and West Virginia". Use the FLC as a gateway to more

than 700 major federal laboratories and centers and their parent departments and agencies. www.flcmidatlantic.org.

Wired Wednesday will be held at CVCC in Lynchburg. The cost of admission includes lunch. Please RSVP to rsvp@region2000.org or call the Tech Council at 847-1447 to reserve your space. Wired Wednesday's are great networking events.
